Mr. Ron Conroy  
Vice President Sales & Marketing  
CITY ELECTRIC COMPANY, INC.  
514 W. Genesee Street  
P. O. Box 1018  
Syracuse, NY 13201-1018

Dear Ron:

Congratulations on achieving Green Status in the Philips Lighting Green Leadership Program. This status, which is the highest level a distributor can earn, demonstrates your commitment to sustainability and the growing green movement.

While everyone is saying they're green, you have shown that you truly are dedicated to Sustainability. In fact, you've excelled in the six key areas set forth in the program.

We're delighted to present you with this plaque commemorating this significant achievement. This plaque is also environmentally responsible – made with wood from FSC-certified forests which means the wood comes from well-managed forests. You will also be recognized with a spot on Philips' "Wall of Green" at our Lighting headquarters in Somerset, NJ.

Like you, Philips is dedicated to being sustainable and believes that selling sustainable lighting solutions is not only good for the environment, but good for business.

On behalf of Philips, I again want to thank you for supporting the green movement. I challenge you to keep striving for improvement and environmental responsibility in all aspects of your business.

We are proud to be partners with City Electric Company, Inc., and look forward to continued success.

Best regards,

William B. Tortora  
Vice President, Distributor Sales
