Lunch & Election of Officers: 12:00 - 1:00PM

2, 10 min. breaks in morning and in afternoon sessions

Distribution of certificates, Door Prizes: 5:00PM

- NOTE - Board of Directors Meeting to follow seminar

Do you know your legal requirements to provide training and PPE for your employees? Do you understand your responsibilities to interpret the Arc Flash Protection Boundary, the Limited, Restricted and Prohibited Approach Boundaries? Are you using the required voltage rated tools? Do your employees establish the legally required boundaries to protect the unqualified people in the vicinity of exposed electrical conductors? Do you understand the OSHA requirements to provide an electrically safe work program for your employees? Do your Lockout/Tagout procedures meet minimum OSHA requirements? Does your Energized Work Permit process meet minimum standards?

Presenter:

Tim Croushore, P.E. - Consulting Electrical Engineer at First Energy

NFPA 70E Instructor for the National Fire Protection Association; Past Chief Electrical Engineer at NFPA; Past Chair Code Making Panel 9; Chair Code Making Panel 12; Past Chair EEI Electric Light & Power NEC Task Force

Tim can explain the engineering and safety changes occurring throughout the industry in reaction to NFPA 70E requirements including some of the more important changes that will affect many of us, and the way we perform our work.

The NFPA 70E training program will be used for this seminar with permission granted by NFPA.

NFPA 70E books will be provided with registration to the seminar.

Visit our Chapter Web Site at: <http://empire.iaei.org>

(Members receive bi-monthly IAEI magazine & discounts on code books & seminars. Apply to be a member!)
