“Use one Bridgeport Fittings Universal Steel Strap for most popular MC/AC cable sizes.”

Universal Steel one hole straps **US-4461 and **USS-6171******Product Features**

- ⓑ **US-4461** can accommodate 14/2 to 10/3 or cables with an Outer Diameter of .44 to .61
- ⓑ **US-4461** can accommodate 3/8 Flexible Metallic Conduit
- ⓑ **USS-6171** can accommodate 12/2 to 10/3 jacketed MC cables with O.D. of .61 to .71
- ⓑ **USS-6171** is made of Stainless Steel
- ⓑ Made in the USA
- ⓑ UL listed
- ⓑ Patented
- ⓑ Both are UL listed for MCIA

**US-4461 Universal Steel Strap **UPC# 02892****

The **US-4461** has the ability to strap a number of AC and MC cables from 14/2 to 10/3. The **US-4461** is UL listed for use with steel and aluminum MCI-A; steel and aluminum MC or AC cables, and 3/8” steel and aluminum FMC.

**USS-6171 Universal Stainless Steel Strap **UPC# 02893****

The **USS-6171** is a stainless steel strap that is suitable for use in wet locations, and environments that require the corrosion resistance of a stainless steel product. The **USS-6171** is UL listed for use with jacketed MC(JMC) and jacketed MCIA cable from 12/2 to 10/3. This type of cable is similar to conventional MC cable, but the cable assembly is coated with a jacket of PVC.

Product Notes

- Bridgeport Fittings Universal Steel Straps offer a unique patented feature we refer to as the *spring loaded finger*. This spring loaded finger enables the universal steel strap to securely fasten a wide range of MC cables from 14/2 to 10/3.
- The applications are truly universal as these straps can handle anything that falls between the *ranges listed in their part numbers*:

The **US-4461** has an applicable range for MC/AC cables with an outer diameter of .44 to .61 inches and 3/8 FMC

The **USS-6171** has an applicable range for jacketed MC cables with an outer diameter of .61 to .71 inches.

- The stainless steel composition of the USS-6171 enables it to perform in environments that require a high tolerance to corrosive elements.
- With Bridgeport Fittings Universal Steel Strap line, electricians will always have the proper strap. The US-4461 & USS 6171 will work for almost every cable support application. The US-4461 is also listed as a means of supporting 3/8" FMC.

Customers can order fewer products for their AC/MC/MCIA/JMC strapping needs and eliminate unnecessary part numbers.
